

## How to share your diabetes information in three easy steps

1. Download & setup app

2. Connect meter to app

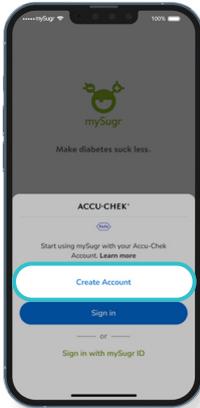

3. Generate sharing code

Download the mySugr® app

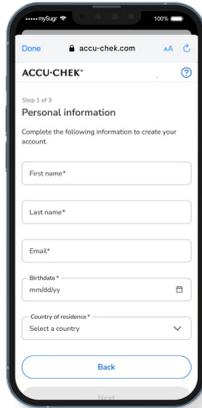

It's easy. Scan the code with your phone to download, then use your email to create an account.

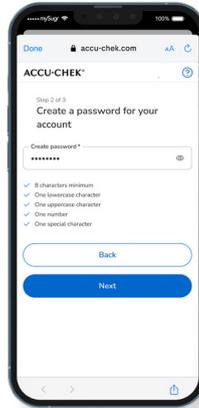

## Download and setup the mySugr\* app

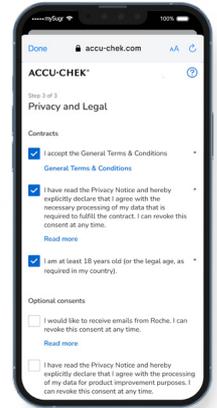

1. Open the mySugr app, tap on "Create Account".

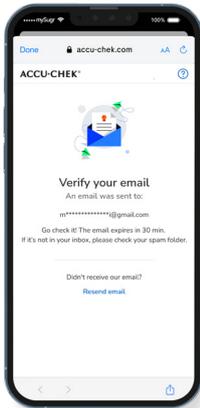

2. Enter your personal information, tap "Next".

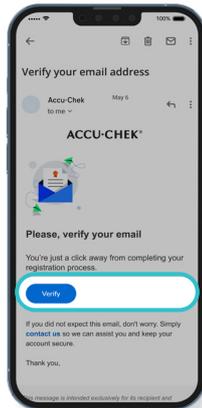

3. Create a secure password, tap "Next".

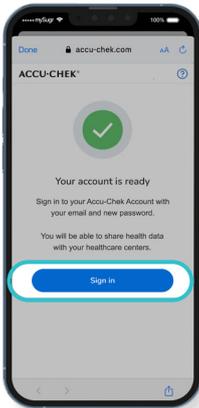

4. Review terms and conditions, tap "Create".

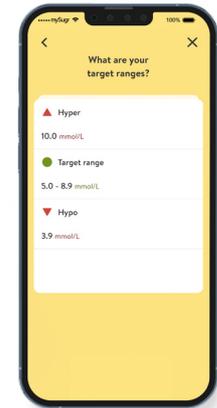

5. Check your email inbox to verify email address.

6. In the email, tap "Verify".

7. Tap "Sign In", enter your email and new password.

8. Proceed with the initial mySugr app setup.

To be completed by your healthcare team to help you set up the mySugr app (tick / complete as appropriate):

Type of diabetes			Diabetes therapy			Target ranges		Blood sugar / Carbs		Other
Type 1	Type 2	Gestational	Pen / Syringes	Pump	No Insulin	Hypo	Hyper	mmol/L	g	Meter
<input type="radio"/>	<input checked="" type="radio"/>	<input checked="" type="radio"/>	<input type="text" value="Accu-Chek Instant"/>							
LADA	MODY	Other	Pills: Yes	Pills: No		Target range		mg/dL	ex	<input type="text" value="Glucose sensor (if asked)"/>
<input type="radio"/>		<input type="text"/>	to <input type="text"/>	<input type="radio"/>	<input type="radio"/>					

# Connect your Accu-Chek meter to the mySugr app

The mySugr app automatically and wirelessly captures your readings when connected to an Accu-Chek meter. Using an Accu-Chek meter together with the mySugr app can help improve your blood sugar control, estimated HbA1c, and diabetes understanding.<sup>1,2</sup> Here's how to connect your meter:†

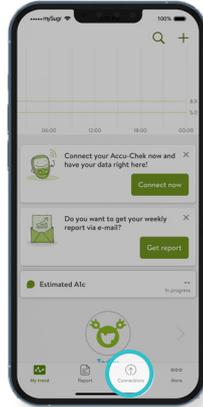

† If you do not have an Accu-Chek Instant meter please speak with your healthcare professional.

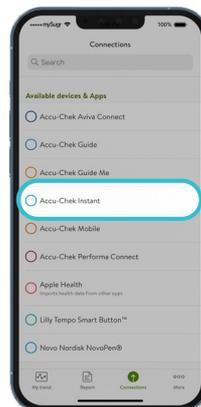

IPHONE ANDROID

**1.** Make sure Bluetooth is turned on.

**2.** In the mySugr app, tap on "Connections" at the bottom of the screen.

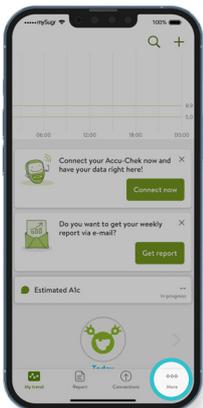

**3.** Choose your device from the list.

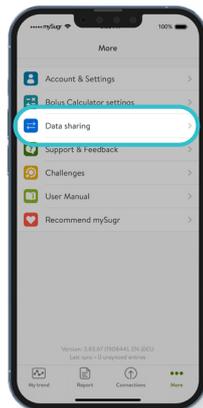

**4.** Tap the Connect button and follow the on-screen instructions.

## Generate sharing code

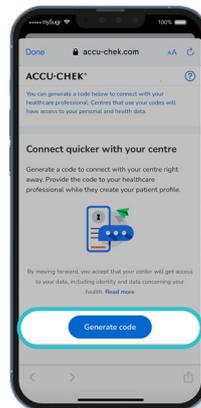

You can easily share your results with your healthcare professional, so you both get the full picture of what's affecting your blood sugar. To do this, mention you are ready to share your results with them using the mySugr app. They will then ask you to generate a sharing code using the mySugr app to securely connect you to their system. Here's how:

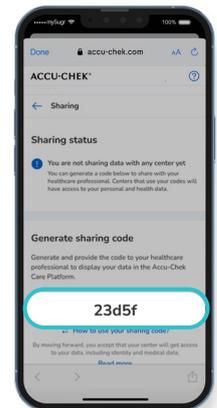

**1.** In the mySugr app, tap "More".

**2.** Tap "Data sharing".

**3.** Tap the "Generate Code" button.

**4.** Give this code to your healthcare professional.

The mySugr logbook is licensed for people with diabetes over the age of 16 years. The mySugr Bolus Calculator is licensed for people with diabetes over the age of 18 years. Users will need to be at least 18 years old to register.
